Xerox App Gallery

The Xerox App Gallery is your gateway to a growing collection of easily downloadable and installable apps designed to transform the way you handle documents and data. Simplify time-consuming, repetitive, and complex processes by extending your printer's capabilities in unexpected ways. With our easy-to-use apps, your Xerox® ConnectKey® Technology-enabled printers or MFPs become well-connected, simple-to-use, smart workplace assistants.

LEVERAGE YOUR INVESTMENT

Your printer or multifunction printer no longer needs to be tucked away in the corner of your office. It can take center stage of your daily business operations. Paper-based processes still exist for many of us. Using your workplace assistant – driven by app technology – to simplify, automate, or even remove some of these processes helps reduce costs, improve productivity, and leverage your investment in Xerox® ConnectKey® Technology.

GET CONNECTED

Through Xerox App Gallery, you have immediate visibility to apps that allow you to scan, print, convert, compare, share, and communicate in ways you never thought possible from your printing device.*

Once your account is set up, you can install** any app at the touch of a few buttons.

ADD SMART BUSINESS FUNCTIONS AND CAPABILITIES

Just like your smartphone or tablet, apps instantly add new capabilities for your business needs, such as the ability to transform hard-copy documents into editable formats, translate them into any one of over 40 languages, or even convert them into audible files.

They can also be your interactive help desk, allowing you to order supplies, request service, and even update you on progress. Additionally, these apps can help you route and process business-critical documents, such as invoices and expense receipts, automatically and effortlessly.

KEY BENEFITS OF STREAMLINING BUSINESS PROCESSES BY USING XEROX® CONNECTKEY® APPS

- Fewer steps for the same process — improves overall business productivity, reduces potential errors, and lowers costs.
- Minimal-to-no-training-required means employees embrace and use the technology from day one.
- Increased security of business-critical information thanks to direct connections, so fewer mistakes are made.

*Printer/MFP internet access required. **Device admin password is required to install apps.

EASY TO INSTALL

The Xerox App Gallery comes pre-installed on every Xerox® Device built on Xerox® ConnectKey® Technology, allowing for simple browsing and installation of apps right from its user interface (UI) without the need for IT staff. Just select the app you want, then tap to install — it's as simple as installing apps on your phone.**

INSTALL VIA PC

If you have more than one ConnectKey Technology-enabled printer on your network and wish to install apps on multiple devices simultaneously, the Xerox App Gallery can also be accessed from your PC, allowing you to add all your devices so you can deploy them in one go. Access the Xerox App Gallery at www.xerox.com/AppGallery.

SECURITY AT THE HEART OF XEROX® CONNECTKEY® TECHNOLOGY

Whether you choose to connect your workplace assistant to in-house or cloud-based solutions via an app, Xerox® ConnectKey® Technology uses the highest levels of security, ensuring your device and data are kept completely safe and secure.

Cloud-connected printers and multifunction printers make it easier to share documents and data, and present endless possibilities for businesses to create or benefit from process shortcuts.
